I bought my new Honda with XM Satalite Radio the last part of Feb. 2004 and I LOVE my radio, with all the news and weather and traffic. I received 3 months free, and quickly called and got an additional 1 year subscription as now I canNOT live without it. It is a very very small amount for a large large coverage. Now I turn on my radio the minute I get in my car and LOVE every minute of it. I feel that since I pay for this service the NAB does not have the right to dictate what I can hear on my radio. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM who provides the kind of programming that I pay for, love, and deserve.
thank you Jo Ann Hagge
